

Greetings,

The Hazelden Betty Ford Foundation has been saving lives and restoring families from substance abuse and addiction for more than 70 years. Our mission is to be a force of healing and hope for individuals, families and communities affected by addiction to alcohol and other drugs.

Hazelden Betty Ford recognizes that many excellent programs have been hard-hit financially by deep cuts in governmental and foundation aid. Weekly requests for assistance come from chemical dependency programs, schools and other educational institutions; from the criminal justice system and other governmental organizations, from churches, and from social services and non-profit organizations.

Our donors are responding to this need through generous personal contributions to support programs, which need materials but can no longer afford them. Over the past year, Hazelden Betty Ford donated almost 36,000 products worth more than \$550,000 to worthy organizations throughout the world.

Current donor funds may not be enough to meet the needs of all of the requests we receive. If you can contribute to the shipping of your package and “pay it forward” to another in-need organization such as yours, please send your donation to the address listed below:
